Hello and Goodbye!

Goodbye and Good luck to Dr Hall whose placement at Northlands has now sadly come to an end. We will also be saying farewell shortly to Dr Udensi and our congratulations to her on becoming a fully-qualified GP.

We are very pleased to welcome two new trainees in August - Dr Lisa Ferro and Dr Kyi Maung. Dr Ferro and Dr Maung will both be based in the upstairs Consulting Rooms.

NHS MiDoS (Directory of Services)

What is it?

MiDoS is a Directory of Services (DOS) information search tool which provides up-to-date health service information. To find out more about local NHS services, simply use the new portal on the homepage of our website (see illustration below).

If you know the kind of service you need, a pharmacy, maternity service or there is a mental health need, for example, you can enter your location in the portal and click on the NHS Services button which will open up further options. Once you have selected the service type you need you will find addresses, telephone numbers, websites and more, all in one place.

Joined-Up Care

We work with other providers of technical solutions for our surgery, therefore on the same portal we have created links to existing patient services: DoctorLink for those times when you are not sure what service is best for you, and SystemOnline so you can book an appointment with your GP, order repeat prescriptions or view your record.
